

**ECOWATER**  
S Y S T E M S®

Your Water. Perfected.

## COMFORT WATER SOFTENERS

EcoWater Systems provides hard water treatment for your home by removing calcium and magnesium from the water. Once those hard water-producing elements are eliminating, your family will enjoy the benefits of soft water.

## Intelligent and Patented technology

An EcoWater softener, tailored to your home's exact requirements, will deliver the most cost-efficient, reliable and long-lasting solution to your hard water problems. Whatever size of home, or number of occupants, EcoWater provides the intelligent answer to meet your soft water needs.

## Intelligent and Patented technology

EcoWater softener constantly monitors your water usage. It automatically calculates the exact proportion of salt and water necessary to clean the resin bed. This unique technology provides dramatic savings on both salt and water whilst ensuring you never run out of softened water.

Dimensions (cm)	Comfort 200	Comfort 300	Comfort 400
Total Height	66,8	88,0	114,0
Distance between floor and by-pass	54,0	70,0	96,5
Salt tank height	41,4	58,4	83
Width	32,4		35,5
Depth	43,2		50

Technical specifications	Comfort 200			Comfort 300			Comfort 400		
Amount of High Capacity Resin (liter)	10,5			14,7			17,6		
Rated Softening Capacity @ kg. Salt Dose	°f.m³	dH.m³	kg	°f.m³	dH.m³	kg	f.m³	dH.m³	kg
	30	17	0,5	48	27	0,7	49	27	0,8
	39	22	0,9	75	42	1,4	107	60	2,7
	53	30	2,0	103	58	3,8	147	82	4,5
